

AQUA LUNG LV2 EBS OPERATION

PRE-DONNING EMERGENCY BREATHING SYSTEM

1. ENSURE THAT THE ON/OFF KNOB IS TURNED FULLY ANTICLOCKWISE

2. ENSURE THAT THE INDICATOR SLOT IS NOT RED

3. CHECK THE PRESSURE GAUGE, IT MUST BE IN THE GREEN

LIFEJACKET DONNING

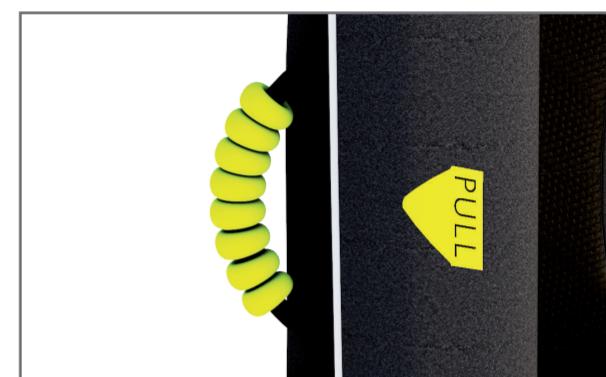

1. OPEN THE FRONT BUCKLE

2. PUT ON THE LIFEJACKET LIKE A WAISTCOAT AND PULL THE ADJUSTERS

3. CHECK THAT THE MOUTHPIECE AND NOSE CLIP ARE PRESENT AND STOWED

4. NOTICE THE INFLATION TOGGLE

ONLY INFLATE THE LIFEJACKET WHEN OUTSIDE THE AIRCRAFT

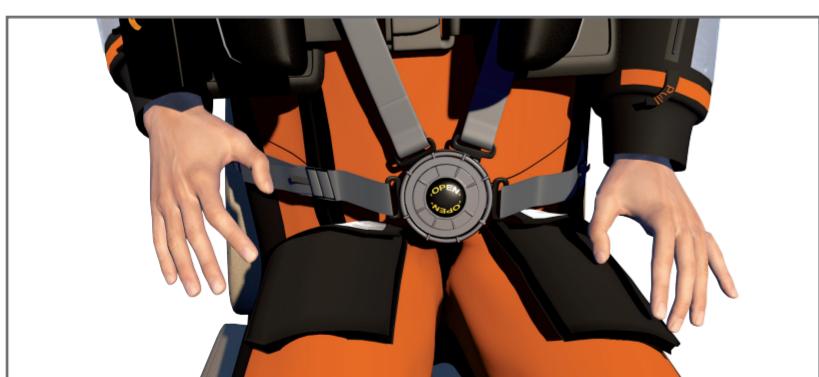

INFLATED LIFEJACKET

ONLY INFLATE LIFEJACKET WHEN CLEAR OF AIRCRAFT

EMERGENCY PROCEDURES

IF IN DANGER OF CAPSIZING OR SINKING

1. RETIGHTEN HARNESS AND PUT ON YOUR HOOD

2. DEPLOY YOUR BREATHING SYSTEM

3. START USING THE MOUTHPIECE AND BREATHE NORMALLY

5. PLACE THE NOSE CLIP ON YOUR NOSE

6. IF THE MOUTHPIECE HAS WATER IN IT, USE THE PURGE BUTTON TO REMOVE IT

6. ONLY INFLATE THE LIFEJACKET WHEN CLEAR OF THE AIRCRAFT

Once the cabin has filled with water, or the aircraft has finished rolling over, release your harness and escape through the nearest emergency exit. Breathe normally through your mouthpiece.
